

EMPLOYEE PROFILE

On July 26th, representatives from USF Emergency Management visited the National Weather Service (NWS) facility in Ruskin as part of as part of USF's StormReady certification program. This visit helps to strengthen relationships with weather experts and enhance severe weather preparedness strategies.

During the visit, EM representatives also discussed the upcoming SKYWARN Storm Spotter training, which is set to take place in January. This annual training provides participants with the skills to observe and

ORLANDO RIVERA
PARKING ENFORCEMENT SPECIALIST
PARKING AND TRANSPORTATION

Orlando Rivera is a dedicated and highly skilled Parking Enforcement Specialist at the University of South Florida. He has been with the organization for over 19 years, where he has played a significant role in managing parking operations and enforcing traffic regulations. His expertise in parking management and transportation services has been instrumental in ensuring the smooth flow of traffic on campus. Orlando is a proactive individual who takes pride in his work and is committed to providing excellent service to the university community. He has a strong background in customer service and is always ready to assist with any parking-related inquiries. Orlando's dedication and hard work have earned him a reputation as a reliable and professional team member. He is currently serving as the Parking Enforcement Specialist, overseeing the daily operations of the parking enforcement unit. His responsibilities include monitoring parking areas, issuing citations for violations, and coordinating with other departments to resolve parking issues. Orlando's attention to detail and his ability to handle challenging situations with grace and efficiency are highly valued by his colleagues and supervisors. He is a true professional who is always striving for excellence in his work. Orlando's commitment to his job and his dedication to the University of South Florida are a testament to his character and his passion for his work. He is a valuable asset to the organization and a role model for his colleagues. Orlando's hard work and dedication have contributed significantly to the success of the parking and transportation department. He is a true professional who is always striving for excellence in his work. He is a valuable asset to the organization and a role model for his colleagues. Orlando's hard work and dedication have contributed significantly to the success of the parking and transportation department.

On July 25, Mechanical Engineer Don Crosby and Glen Aleo, Assistant Director of Building Maintenance, led USF students on a tour of the Judy Genshaft Honors College HVAC suite.

Prior to the tour, Crosby and Toufic Mounme, Director of Maintenance and Utility Services, presented on efficient air cooling and dehumidification. In the presentation, they highlighted the HVAC system's Energy Recovery Ventilation (ERV) process and Energy Wheel components of the Honors College's Dedicated Outdoor Air System (DOAS-1). This system recovers energy from exhaust air to precondition incoming air, reducing energy use and contributing to the building's LEED certification. Students then took a tour to observe the ERV equipment in action, experiencing firsthand the air temperature and humidity differences before and after the energy recovery process.
