

# SMALL CHEMICAL SPILL CLEANUP PROCEDURE

Never proceed to clean up a spill if you do not know the hazards associated with the chemical or if you are unsure of how to clean up the spill.

Contact EH&S for spill assistance at 813-974-4036

1. Alert nearby people to what has happened. Secure the scene and keep people away from the area.
2. Identify the chemicals involved in the spill. If it is volatile and flammable, evacuate the area.
