behavior, social relationships, social stratification, institutions, neighborhoods and communities, culture, the physical environment, policies and globalization.

SOW 6348 Diversity and Social Justice

Fall 2014

Instructor for this course which is an introduction to the study of diverse cultures, abilities and norms which comprise our global society. The course content centers on the inherently diverse client systems that social work clinicians will be called upon to interface with in their different roles as change agents and advocates for social justice.

MHS 4490 Behavioral Healthcare Issues for Children

Spring 2014- 2017

Co-instructor of this course which provides undergraduate students with an overview and understanding of significant issues and trends in behavioral healthcare for children. The purpose of this course is to prepare students to address behavioral healthcare issues involving children from the pre-kindergarten level through adolescence, and their families.

HSC 4579 Foundations of Maternal and Child Health

Summer C 2012, Spring 2014, Fall 2014

Instructor of this web-based course of more than 45 students designed to provide students with an overview of maternal and child health issues and trends.
