

Communication Sciences and Disorders 2020-2025 Strategic Vision

***Please note that each of the four major goals has been organized into action
-fold mission of research, teaching,
clinical/ entrepreneurial work, and community advocacy**

Hire tenure track faculty with emphasis on specialization in
Aural Rehabilitation ~~4/12/17~~

Increase marketing of the Audiology clinic, Speech Clinic, Bolesta Center, and HOUSF

Promote CSD's strength in Hearing and Deafness to the wider community through expanded activities (exploring preschool, community youth center, Bolesta Expansion, community ASL classes, etc.)

Capitalize on increased community involvement to pursue development opportunities

Increase partnerships with community members, especially the local school systems

Direct department RIA and other funds to support research proposals in this area

Incentivize interprofessional teaching with release times, funded guest lectures
