THE COUNCIL OF STATE GOVERNMENTS

The Variability in Law Enforcement State Standards:

42-

6

...the variability in law enforcement state standards is a significant issue that needs to be addressed. This variability can lead to inconsistent training and standards across different states, which can impact the effectiveness of law enforcement agencies. It is important to establish a national standard to ensure that all law enforcement officers receive the same level of training and adhere to the same standards of conduct.

Key Takeaways

1. The $\text{Cov}(X, Y)$ is the average of the product of the deviations from the mean of X and Y .

✓ $\text{Cov}(X, Y) = \frac{1}{n} \sum_{i=1}^n (x_i - \bar{x})(y_i - \bar{y})$.
The $\text{Cov}(X, Y)$ is the average of the product of the deviations from the mean of X and Y .
