Transforming Services for Persons with

(CJMHSA TAC) facilitated the mapping. Robert Parkinson, Eva Dyer, and Sarah Rynearson-Moody of Hillsborough County's Department of Strategic Planning and Grants Management and Angie Smith, Chief Deputy of Court Programs for the 13th Judicial Circuit organized the logistics of the mapping.

Objectives of the Sequential Intercept Mapping

The SIM is based on the Sequential Intercept Model developed by Patricia Griffin, Ph.D. and Mark Munetz, MD for the National GAINS Center for Behavioral Health and Justice Transformation funded by SAMHSA. During the mapping, the facilitators guided participants to identify resources, gaps in services, and opportunities at each of the six distinct intercept points of the criminal justice system.

The SIM has three primary objectives:

- Development of a comprehensive map of how people with SAMH disorders flow through six distinct intercept points of the Hillsborough County criminal justice system: Community Services, Law Enforcement and Emergency Services, Initial Detention and First Appearance, Jails and Courts, Reentry, and Community Supervision and Services. - The goal of the HREC is for individuals to leave the jail with a reentry plan in place.
  - The Hillsborough County Healthcare Plan utilizes Winn Dixie Pharmacy and telehealth services.
- The HREC maintains relationships with the former inmates for up to eight years.
- Two reentry teams serve individuals released from jail and prison:
  - HCSO General Reentry Team services individuals returning from prison and jail.
  - Northside Behavioral Health—Forensic Community Services personnel are co-located at the Reentry Center and assist with reentry planning for persons with significant behavioral health issues. This includes both persons formally served by the Looking Ahead Program and persons returning from prison who have been identified in the FDC End of Sentence (EOS) System.

Expiration of Sentence System

- Partnership between FDC and DCF to provide a continuity of care for inmates with mental health needs who are nearing the end of their sentence in prison.
- Northside conducts the assessments, offers referrals for treatment and services, and provides behavioral health treatment in the community.
- Six months prior to the release date, FDC personnel enter the inmate in the EOS System, a community behavioral health referral is generated, and subsequently transmitted to Northside personnel. An appointment is scheduled at Northside upon the inmate's release.
- The Expiration of Sentence System has assisted 267 inmates from July 1 through October 31, 2018.
- CFBHN is responsible for tracking individuals and coordinating care with community treatment providers.
