

Cybersecurity Program Catalog 2023-24 – 120 Hours

NOTE: This flowchart is provided as a guide; the catalog is the only definitive source of requirements.

Industry certification

Students are prepared to earn CompTIA Network+ and Security+ certifications with some additional study needed. Students are prepared to gain experience to earn CISSP certification.

Notes

- 1) MAC 1147 may require MAC 1105 College Algebra as a pre-requisite. Consult with the Department Advisor for more information.
- 2) Approved Cybersecurity Electives have been listed. See the Department website for more information.
- 3) The maximum number of credit hours for the program is 120. The maximum number of credit hours for CIS 4947 in any combination is 9 credit hours in a single company.
- 4) Students may be required to complete a basic civic literacy course and a passing score on a civic literacy assessment before graduation. Consult the catalog.
